

NEW!

Dimax Int. GmbH (Germany) presents a brand new version of the KS 6000iE S inverter generator **with ability of ATS connection**

The KS 6000iE S inverter generator from Könnér & Söhnen® is a practical device with a soundproof housing (L_{pa} (7m) - 70 dB) for powering domestic appliances and sophisticated sensitive devices.

The integrated microprocessor-controlled electronic unit controls the generator operation and provides a stable output voltage of 230V 50Hz sinusoidal form. The generator has an 8-pin connection for an external ATS unit (Automatic Transfer Switch) and is compatible with the KS ATS 4/25 Gasoline unit. The ATS unit automatically starts the generator and switches the load to it when the main power source is turned off.

In addition, the KS 6000iE S generator control panel features an ECONOMY MODE switch for up to 50 percent lower fuel consumption, two USB sockets (5V/1A & 5V/2.1A) and a standard 12 V car socket.

KS 6000iE S

Max power/Nominal power, kW	5.5/5.0
Current (max), A	23.9
Outlets	1 x Schuko 230 V, 1 x CEE 230 V 32 A
Engine start	Manual/electric
Fuel tank volume, l	11
Possibility of parallel connection	+
Input for ATS	+
Net dimensions (LxWxH), mm	640 x 425 x 600
Net weight, kg	39.5

- ✓ PURE SINE WAVE
- ✓ LOW NOISE LEVEL L_{PA} (7m) - 70 dB
- ✓ POSSIBILITY OF CONNECTING THE ATS SYSTEM
- ✓ ROBUST ENGINE
- ✓ 6-IN-1 MULTIFUNCTION LED DISPLAY
- ✓ POSSIBILITY OF PARALLEL CONNECTION
- ✓ TRANSPORTATION KIT

TRADITIONS OF GERMAN QUALITY ARE AFFORDABLE FOR EVERYBODY!
