

**NEW!**

Dimax Int. GmbH (Germany) presents an updated version of the KS 8100iE ATSR inverter generator **with increased power**

The KS 8100iE ATSR inverter generator from Könnér & Söhnen® now has a **maximum output of 8.5 kW and a nominal output of 8.0 kW**. The generator control panel has an 8-pin ATS input that is compatible with the KS ATS 4/25 Gasoline ATS unit. The ATS unit automatically starts the generator and switches the load to it when the main power source is turned off.

The built-in electronic unit with microprocessor control monitors the operation of the generator and provides a stable output voltage of 230V 50Hz sinusoidal form, which is suitable for the reliable operation of sensitive electronics.

### KS 8100iE ATSR

Max power/Nominal power, kW	8.5/8.0
Current (max), A	34.8
Outlets	1 x Schuko 230 V, 1 x CEE 230 V 32 A
