 Montage facile, matériel parfaitement adapté pour un grand jardin... Personnellement j'y ai adapté nombre d'outils pour une utilisation régulière... Utilisation aisée et facile... BRAVO.

le motoculteur semble de bonne qualité
 ✓ Oui, je recommanderais ce produit à un proche
 Je ne l'ai pas encore testé mais a première vue il semble de très bonne qualité mais le gros problème est que la notice de montage est en anglais et de plus totalement incompréhensible. C'est inadmissible car monter le motoculteur sans notice est une véritable gageure. C'est se moquer du monde que de fournir une tel notice, vous devriez revoir votre copie
